## Subtraction Number Bonds

There are lots of different ways to subtract from a number (one more than the number itself, e.g. there are 6 ways to subtract from 5). Use your knowledge of number bond subtraction facts to complete the grids below. Try to fill in all the possible answers for each number and write them in order (subtracting the biggest number first).

> LI: We are learning about numbers
> LC: Number Bonds to 10 (Subtraction)

SC: I know that numbers can be subtracted in different ways - SA
I know different ways to subtract each number shown - SA
I know the number of different ways is one more than each number - SA
I can write all the different ways to subtract from each number Challenge: I can write the different ways in pattern order (starting from the biggest) I can create my own grids and write number bond subtraction patterns for numbers bigger than 10-SA
