

# SCIENCE

pushes and pulls - forces and motion

LI: We are learning about forces.

SC: I can explore forces.

I can sort toys into groups according to how they move.

## **Activities**

1. Watch the BBC Bitesize clip - **What Are the Different Forces?** -  
<https://www.bbc.co.uk/bitesize/topics/zn77hyc/articles/zptckqt>
2. Play the forces labelling game online - (same link)
3. Watch **the powerpoint - Toys that Use Push and Pull Forces.**
4. Collect some of your own toys and sort them into two groups - (1) Push (2) Pull. Are there any that could fall into both groups?

## **Optional Activities:**

*Push or pull toy sort cut and stick (PDF).*

I look forward to seeing your pictures on Seesaw or Twitter.
