January 2019

Dear Parent/Carer

Moray Council Schools and Curriculum Development Section will be conducting a Schools for the Future Visit to Keith Grammar School on 6th and 7th February 2019.

The Local Government in Scotland Act 2003, places a duty on local authorities to make arrangements which secure best value in terms of continuous improvement. The review is part of a programme which will normally involve 2 Associated Schools Groups schools each year in an in-depth evaluation of performance in a number of key areas. This year we are covering 3 Associated Schools Groups to complete visits at all schools under the current policy. The audit team will be made up of Education officers and colleagues from other schools and will be looking specifically at the educational experience the school provides, its roll and financial position.

During the visit the audit team will visit classes, look at aspects of the school organisation, sample pupils' work and meet with pupils, staff and parents. The Schools for the Future review process allows us to better support and challenge our schools and help in our drive to raise standards throughout the authority.

The school will receive a report which will be published once reported to the Children and Young People's Services Committee. This will include Strengths and Areas for Improvement which will be shared with you by the Head Teacher.

Should you wish any further information on the Review visit then please do not hesitate to contact me at the above address.

Yours sincerely

Vivienne Cross
Head of Schools and Curriculum Development
