

## Using Google Classroom

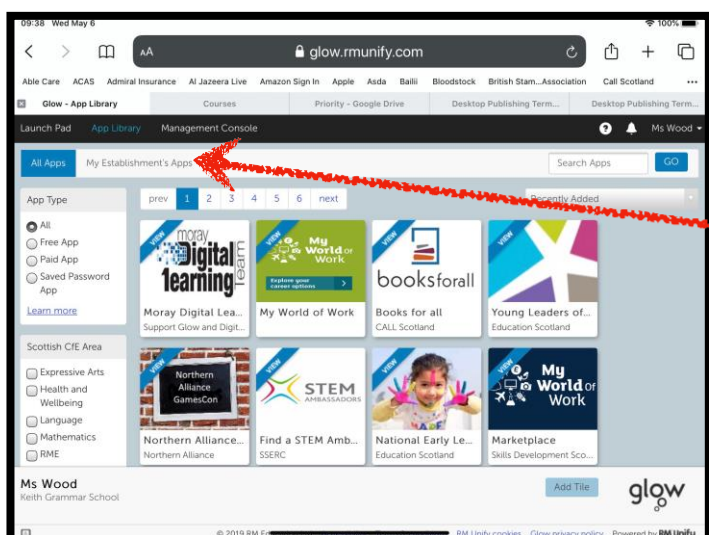

To use Google Classroom on your iPad or mobile device, you can't download the app as it requires a different way of accessing, which means you can't use your Glow email address or connect to the classes.

To access Google Classroom, take the following steps

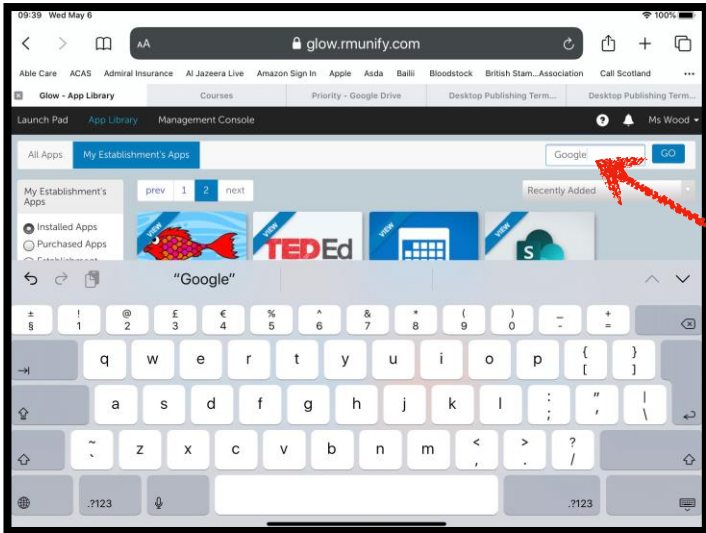

Go to your web browser and sign into Glow in the usual way.

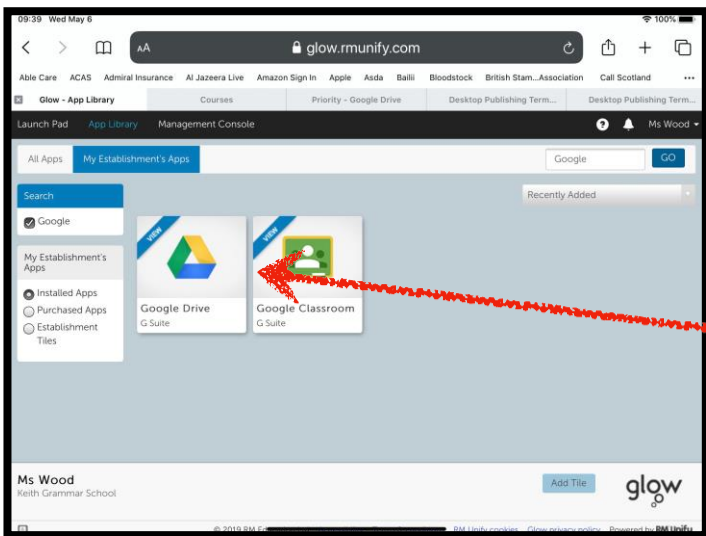

Click on to the App Library and the next screen should appear

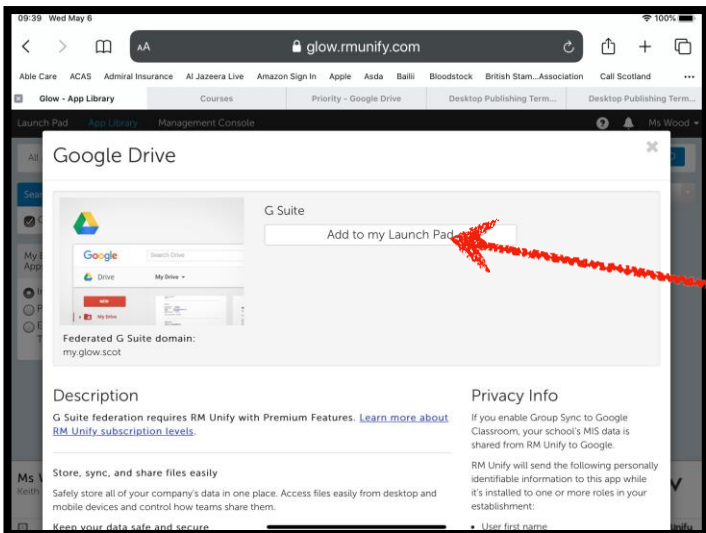

Click on to My Establishment Apps and the next screen should appear

Type in Google and the next screen should appear

These two apps should appear

Click on each app and add to your launch pad

Tip: When you access your subjects, use the online Office 365 documents  
You can then save to both OneDrive & Google Classroom.  
Tip: Tap twice on tiles in the classroom to access document
