Sporting Activity Participation & Performance		Modern Languages for Life & Work	
Film & Media		English	
Survival Cookery		Beekeeping	
Data Science		Music for Wellbeing	
Cybersecurity			

S5/6 students are expected to have 6 fully committed columns, one of which will support their transition to their initial post-school destination.

Column E indicates courses at neighbouring schools and Moray College. Details on school website (see link above).

In addition to courses listed it would be possible to study other Advanced Higher courses either here at KGS if numbers and staffing allow or through our existing partnerships at a range of neighbouring schools.

All students are expected to maintain an acceptable level of effort in all classes as well as make a regular contribution to the life of the school through, for example, serving as Prefects and assisting with House and pupil activities.
