03 February 2022

Dear Parent/Carer

## COVID-19 MITIGATIONS

I hope this letter finds you and your family well as we see the lighter nights approaching and are certainly seeing the early arrival of Spring with milder weather and some plants beginning to come through.

You will be aware of changes to mitigations across wider society with a relaxation of some rules. We have just received the latest version of school guidance which could allow us to relax some mitigations which include children returning to dinner halls, removing staggered starts and breaks etc. However, due to the high level of positive cases and daily reporting of new cases in Moray at the moment across our school and nursery communities, along with the high level of staff and pupil absence, we will not be making any changes to existing arrangements until after the long weekend. This is a cautious approach to maintain a low footfall whilst reducing risk to all.

Wishing you all a good mid-term break when it comes.

Yours sincerely

Vivienne Cross  
Head of Education (Chief Education Officer)
