

AMEY, Amco Giffen, DYW Moray and KPS

CONSTRUCTION CHALLENGE: BUILD A BRIDGE

AMEY and AMCO Giffen worked locally on the Union bridge and old Banff Turnpike bridge respectively. Through discussion with DYW Moray, representatives came in to discuss STEM careers in their industry to inspire our P5-7 pupils as tomorrow's workforce. Exciting workshops where teams built bridges using Knex kits and then tested their load bearing abilities took place allowing lots of opportunities to transfer their curricular learning into a practical task.
