What Glow should be used for?

Glow is Scotland's nationally available digital environment that can be used to support learning across the whole curriculum.

Eligibility for an account requires individuals to work directly with learners or in the support of curriculum delivery. PVG or Disclosure checks are required prior to the issuing of accounts.

Inappropriate Use	Appropriate Use
❌ Direct contact with parents via learner account (requiring login).	✅ Communicating and sharing resources with learners.
❌ Collaborating and sharing with non Glow users - e.g NHS and non Education satff.	✅ Collaborating with colleagues on creating learning resources and school organisation.
❌ Storage of sensitive data that you would not be happy if it was seen by others outside your control.	✅ Storing learning materials so they can that can be accessed on any wifi enabled device.
❌ Sharing login details and storing/sharing inappropriate or copyright materials	✅ Creating Glow Blogs or Google Sites to post appropriate information or resources for parents.

If the activity your were planning does not fall into the acceptable uses listed above please contact ICT to discuss alternative solutions.
