Education Scotland Guidance on using the Benchmarks for Assessment August 2016

The two key resources which support teachers to plan learning, teaching and assessment are:

- Experiences and Outcomes
- Benchmarks

The Benchmarks support teachers' professional judgement of achievement of a level. They set out very clear statements about what children need to know and be able to do to achieve each level of the curriculum. They streamline and embed a wide range of existing assessment guidance (significant aspects of learning and progression frameworks) into one key resource to support teachers' professional judgement.

Assessment judgements should be made using the Benchmarks for each curriculum level. The Benchmarks describe the standards that children and young people need to meet to achieve a level. The Benchmarks are grouped together to support holistic assessment and avoid assessment of individual Experiences and Outcomes.

Assessment is an on-going process to support learning. The Benchmarks should be used to help monitor progress towards achievement of a level and to support overall professional judgement of when a learner has achieved a curriculum level. They support professional dialogue, moderation and monitoring of progress in learning.

Evidence of progress and achievement will come from:

- observing day-to-day learning within, and outwith, the classroom.
- coursework, including tests.
- learning conversations.
- planned periodic holistic assessments.
- information from standardised assessments.

Achievement of a level is based on evidence and on overall professional judgement. Benchmarks should be used to review a body of evidence to determine if the standard has been achieved and the learner has:

- achieved a breadth of learning across the knowledge, understanding and skills as set out in the experiences and outcomes for the level.
- responded consistently well to the level of challenge set out in the experiences and outcomes for the level and has moved forward to learning at the next level in some aspects.
- demonstrated application of what they have learned in new and unfamiliar situations.

It is not necessary for learners to demonstrate evidence of every aspect of learning within the Benchmarks before moving on to the next level. However, it is important that this is interpreted in ways which ensure no major gaps in children's and young people's learning, for example with respect to the relevant organisers in each curriculum area.

ENG 4-31a

Notes for Literacy and English Benchmarks

- 1. Texts include the wider definition of texts as outlined in the Literacy and English Principles and Practice Paper. Texts not only include those presented in traditional written or print form, but also oral, digital and film texts. They also include Scottish texts and texts in Scots language. Challenge in literacy and English involves engaging with a wide range of increasingly complex texts which are suitable to the reading age of each learner.
- 2. The statements in bold and italics in both the Experiences and Outcomes and the Benchmarks are the responsibility of all and as such, evidence from across the curriculum should be considered when making judgements about achieving a level.
- 3. Both the Experiences and Outcomes and the Benchmarks are written in an inclusive way which allows teachers to interpret them for the needs of individual children and young people who use Braille, sign language and other forms of communication.
