

# Pilmuir P1 Transition

## Week 2

### Bear Hunt

Can you make a map and binoculars to take on your bear hunt?

On your bear hunt, how many bears you can see in the windows? Count them as you go, how many will you see ...10...20...50? What colours are they? Are they big or small bears?

You could grow some cress, put some wet kitchen roll or cotton wool in an empty yoghurt pot. Sprinkle over the seeds. Cover with clingfilm. Watch it grow into 'swishy swashy grass'! You can collect some cress seeds at school if you need them from Thursday.

Put your map you used for your adventure in your window beside your bear. Maybe you will see some other maps when you are out for a walk.

Share a photo of your map on Twitter #PilmuirPrimary

## The bear hunt begins!
