

## Free Microsoft Office software through Glow

North Ayrshire pupils, via their Glow account, have access to Office 365 to download and install on 5 computers at home. They can also activate the Microsoft Office apps on their iPad/android tablet.

Pupils can install Office on personally owned devices. This will make it easy for every pupil to access the latest version of Office on up to five devices providing both a consistency when learning at home and reinforcing 21st century skills through the use of ICT.

Office 365 can only be downloaded from within the Office 365 component of Glow and therefore pupils will use their Glow account details (username and password) in order to access it.

The download can be accessed from the Glow Launch pad:
