

Corsehill Primary & Early Years Class

Feedback from Parents

'The children are actually more enthusiastic about homework now.'

'My child finds it very enjoyable and attends twice a week. Extending the learning in the school day means she is less distracted.'

'They are still in 'the zone' when they are at 'Bug Club Hub' and they are happy doing their homework!'

Bug Club Hub

Thoughts from our Head Teacher

Learning using ICT has to be accessible for all of our children. Come along to this if you have to share your device at home or your wi-fi connection isn't good. You might even like this opportunity to learn alongside your friends!

- Wendy Rose

Bug Club Hubs runs Tuesdays and Thursdays from 3.00pm - 4.00pm in Mrs Smith's class area. Children and families are free to come along to this drop in service and make use of the school's ICT resources and space to access and complete any homework they may have. Children also have logins to a number of other great educational sites which they can access to practice their skills and extend their

learning. As Bug Club Hub runs straight after school it allows children to remain focused whilst having the opportunity to work alongside their friends. Children have commented that they feel Bug Club Hub is helpful and fun because they can feel more focused in the school building and that they are still in the learning mindset.
