

## Community Support Hubs in North Ayrshire

The hubs will be launched from 24<sup>th</sup> March and will be located in each of our six localities.

Their purpose is to be a local point of contact for need arising from COVID-19, responding with advice, signposting, referral or coordinating volunteers. The hubs will not be open to the public but will work alongside what's underway in local areas.

Our volunteers will be issued with identification badges and if you have any concerns about someone's identity please get in touch with the local hub.

Please get in touch if you need some help.

### Contact details for hubs (live from 24<sup>th</sup> March) :

You can find out about the range of local community support available [here](#), updated daily.

Each hub will have local information in relation to which businesses are delivering shopping and prescriptions, Money Matters contacts, how food can be supplied if you need it and other assistance.

In the first instance, each hub telephone response will be from 9am until 7pm Monday- Friday. [This will start next Tuesday 24<sup>th</sup> March 2020](#). But, as with everything in this current situation this may change. Each hub will be manned by staff from Connected Communities, and the Health & Social Care Partnership including Community Link Workers.
