Session 2024 - 2025

Primary Saturn Class Teacher: Mrs Lavelle

Term: 2

This term we will be learning about the following in class:

Literacy and English:

This year, we will be focussing on a story each week and basing our learning on this for all areas of the curriculum. Some of our stories this term will include; The Knight Who said No, Smartest Giant in Town and Giraffes Can't Dance! We will be continuing with our colourful semantics approach to writing and some will be moving on to using describing words within a sentence. Our daily bucket sessions will allow us to work on our attention and listening skills whilst exploring the changing seasons of autumn and winter!

Numeracy and Mathematics:

This term we will begin to explore the concept of money. We will role play buying and selling, as well as develop our understanding of coins and their value. Through our weekly stories, we will develop our understanding of measurement. Some of us will measure using bricks and other materials, whilst some will begin to use standards of measurement with a ruler. We will continue to develop our understanding of number each week through song and play.

All Other areas of the Curriculum:

In Saturn class we have a play based environment. This means we learn through different play experiences that change weekly. They often incorporate the things we are focusing on in literacy and numeracy but more often cover the other areas of the curriculum.
