

Health and Wellbeing

This term we will work on building a class community and learning about the UNCRC rights. As part of this we will look at friendships and identify the qualities we would like to see in a friend. In PE we will work on co-operating with others during team games and small ball skills. Our PE days are Monday and Friday.

Homework

Homework will be issued on a Monday. Completed tasks/jotters should be returned on Thursday.

Elderbank Primary School Home / School Information

Literacy

Reading - We will be reading various texts in class and will be developing our skills in asking and answering questions about what we have read. We will continue to develop our recall of common words and identify these within a range of texts.

Writing- In our writing lessons, we will be learning to create description texts. Our focus will be on using descriptive vocabulary as well as structuring sentences correctly and using punctuation accurately.

Talking and Listening - We will be developing our skills in showing active listening behaviours using 'Give Me 5'. We will think about how to behave when others are talking and understand what a quality audience looks like.

Numeracy/Maths

In numeracy, we will be focusing on place value, working on numbers within a range of 0-1021. We will develop our skills in recognising these numbers as well as counting forwards and backwards within this range. In addition to this, we will develop quick recall of number bonds.

In our maths lessons, we will be learning to identify and create repeating patterns, using shapes, movements and symbols. We will also be learning to extend number patterns.

IDL

Space

Our topic this term will be Space. Through this topic, we will learn about the planets in our solar system as well as the Sun and the Moon. We will relate this to the World of Work by exploring the role of astronauts and meteorologists.
