Health and Wellbeing

Our Health and Wellbeing focus this term will explore making positive and informed choices. We will begin to understand peer pressure and the impact that risk-taking behaviours can have on our life choices. We will also learn how to use information on food labels to make informed choices, apply key qualities, attributes and sport-specific skills in a variety of situations, and understand how the process by which we learn can help us to achieve success.

P.E

In PE, we are developing our movement, coordination and teamwork skills through gymnastics, hockey and social dance. P.E. days are Wednesday and Friday.

Expressive Arts

Drama- We will create a short drama depicting either the miracle of the Eternal Flame or the miracle of the oil linked to our learning about Hanukkah.

Art- We will explore colour, bold outlines, painting techniques, geometric designs and patterns inspired by Romero Britto. We will experiment with different media, including pencils, paint, and collage while developing our understanding of tone, texture and depth through foreground, middle ground and background.

Numeracy

This term in Primary 6, we will develop our understanding of time by reading and recording 12 and 24-hour time, converting between units, calculating durations and solving problems using timetables and calendars. We will estimate journey times using speed, distance and time, choose appropriate units and timing devices, and apply these skills to practical, real-life situations.

Literacy

Reading - We will continue to develop our comprehension skills through a variety of texts including our class novel 'The Nowhere Emporium', working in groups and independently to further our understanding of issues covered.

Writing - This term, our writing focus will be on creating recount texts. We will learn how to structure a clear recount using a beginning, middle and end, while developing our use of grammar, punctuation, sentence structure, past tense, time connectives and descriptive language to communicate events clearly and effectively.

Listening and talking- Skills will be developed daily through our morning starters and group learning activities. Pupils will have regular opportunities to listen carefully, share ideas, ask and answer questions, take turns, build on others' contributions and communicate confidently with their peers during class discussions and collaborative tasks.

French

This term, we will develop our French vocabulary by learning the days of the week, months of the year, weather vocabulary and words for members of our family. We will practise speaking, listening, reading and writing these key words and phrases through fun, interactive activities.

Topic- This term, we will continue our comparison study between France and Irvine, using the questions and areas of interest identified by the class through their KWL activities. Our focus will be on the most popular topics: climate, school life, transport and retail.

Science- This term, we will explore batteries and investigate how electrical components can be used to create different circuits and learn how to represent circuits using symbols while describing the transfer of energy.

RME - This term in RME, we will be learning about the Jewish festival of Hanukkah. We will explore when and why Hanukkah is celebrated, the historical events remembered during the festival. We will also learn about the miracles associated with Hanukkah and their significance within the Jewish faith.

ICT- This term in ICT, pupils will be learning about the key features of the presentation tool 'Canva'. They will have the opportunity to create dynamic presentations and collaborate with their classmates through e-mail.

Homework

Homework will be issued on a Monday and collected on a Thursday. There will be Literacy and Numeracy tasks.
