Home & School Information

Numeracy

In Numeracy, we will be advancing our multiplication and division skills using a range of times tables. We will explore a variety of pictorial and abstract strategies and will develop our confidence using these strategies in different problem-solving contexts.

In addition, we will develop our understanding of money by comparing costs, creating plans within a budget, and exploring the ideas of profit and loss. We will apply these skills to real-life situations and explain the financial decisions we make.

To support our Number Sense, we will look at recognising and extending number sequences. Also, we will analyse complex number patterns to find a given rule, whilst working on our understanding of square and triangular numbers.

Literacy

Reading – We will be analysing a range of non-fiction texts, using them to locate and consider information and to interrogate their purpose. We will develop our critical analysis of information whilst highlighting bias, and the difference between fact and opinion

Writing – We will explore how to structure and write a recount, using key features such as sequencing events, including relevant details and using appropriate language. Also, we will continue to use daily write opportunities to hone our skills in short, focused writing activities.

Talking and Listening – We will develop our group talk skills by sharing ideas, listening to others and building on different viewpoints. We will practise speaking clearly and confidently.

Topic

Our topic in Term 2 will look at the world of business and enterprise. Primary 7 will consider product design, marketing, advertisement, profit and loss, logistics and vending.

All of our hard work and effort will build up to a wonderful Winter Fayre during which we will be able to showcase all of the fantastic products on offer.

Health and Wellbeing

Our focus for Health and Wellbeing this term is to explore the importance of nutrition and diet on our physical and mental wellbeing. We will also build an awareness of the important reasons for dietary requirements.

In P.E., we will be building upon our overall fitness levels through a range of aerobic and athletic disciplines. We will extend our understanding of cardiovascular health by using different exercises.

Term 2 News

Our P.E. days this term are **Tuesday** and **Thursday**. Please remember a P.E kit in order to fully participate!

Homework is issued on a Monday, to be returned by the Thursday. Please use the jotters provided.
