

Parent Council 3rd May 2022

Registration Consultation

On the 23rd of February, I consulted with staff, pupils and parents/carers via a GLOW Forms.

956 people took part in the survey - 110 staff, 332 parents/carers and 514 pupils.

80% of those who completed the survey supported the introduction of a wellbeing input.

Consultation

As part of Greenwood's Covid-19 recovery, in response to meeting the needs of all pupils and with the support of 80% of those who took part in the initial consultation, I would like to introduce a health and wellbeing check-in each morning.

This will mean that every young person will meet with a key adult daily, before learning begins, meaning that supports can be put in place first thing if required.

In order to do this, there will have to be a change to the start/end times of the school day and minor curricular changes.

Parental Advice

Young people (those aged 18 and under) with mild symptoms such as a runny nose, sore throat, or slight cough, but who are otherwise well, do not need to stay at home and can continue to attend Greenwood Academy.

Pupils should only stay at home if they are unwell and have a high temperature.

Contact the school office if your child is unwell to explain the reasons for their absence.

Ob-Litter-ate Campaign

I sent a letter to all parents on the 23rd of March about the 7-week anti-litter campaign which began on Monday the 28th of March.

The campaign is run in partnership with Streetscene, the Asbit Team, Waste Awareness, our Campus Police Officer, school staff and Irvine Clean Up Crew.

It will also involve our Eco Group and wider school community.

Ob-Litter-Ate Campaign

The objective of the campaign is to reduce lunchtime litter and identify the best ways of tackling the issue through litter surveys, engaging with local shopkeepers and pupils.

Educate by speaking to pupils and sending letters home when required.

Enable by ensuring there are adequate means for litter disposal.

Enforce any non-compliance by taking appropriate action when required.

Monitor findings to develop the approach over time.
