

## COMMENTING ON BLOG POSTS

If you have been made a contributor of someone's blog, you can leave a comment on their posts. You need to leave your blog and go to theirs in order to do this. Here are the steps.

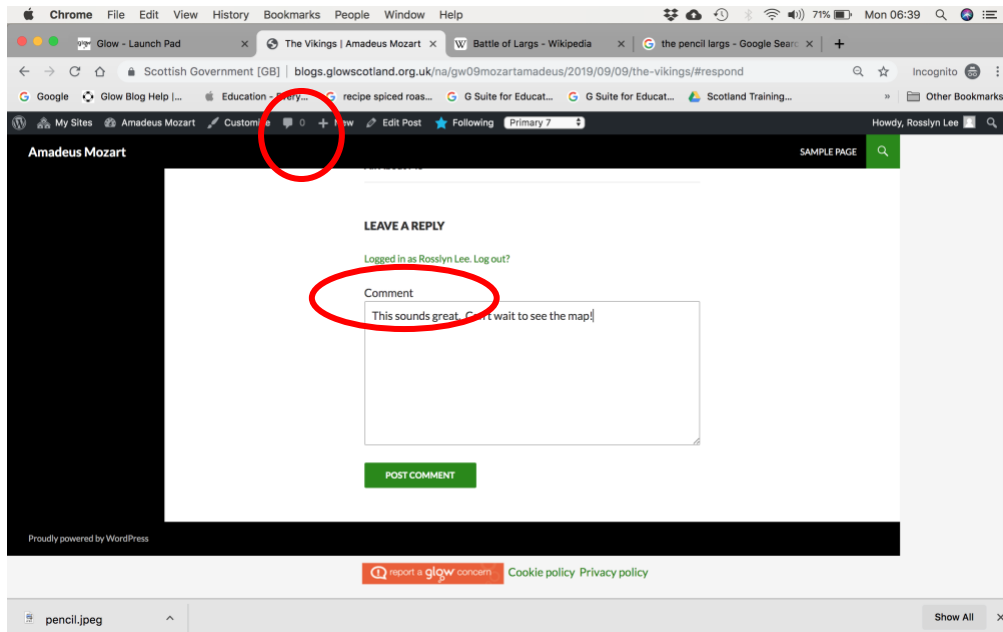

1. Open your blog at the front page and click MY SITES to see the list of blogs that you are a contributor of. Choose the one you wish to visit.

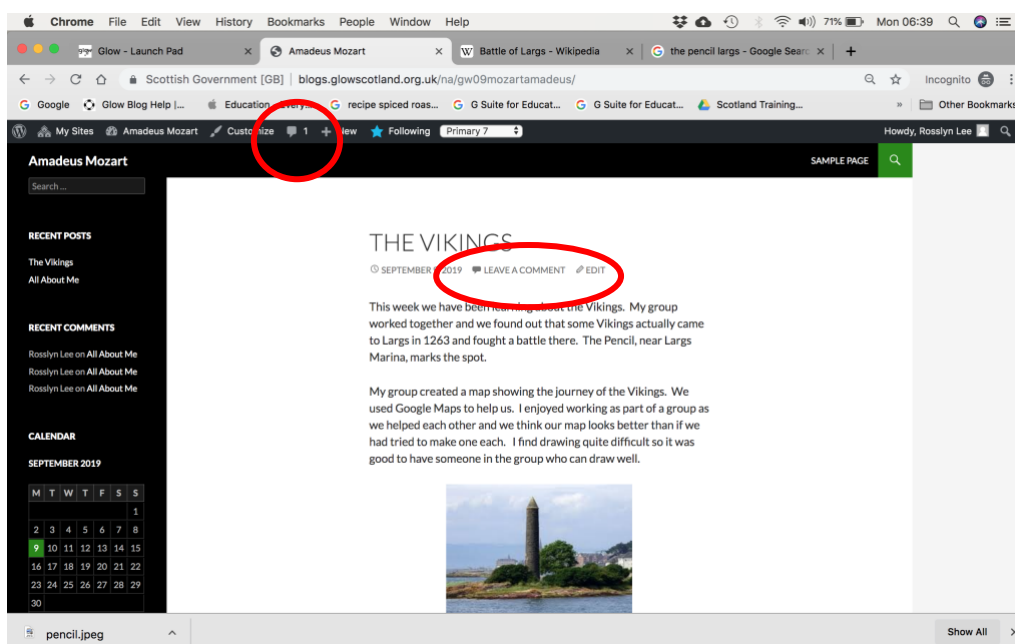

2. Now we are in the blog of Amadeus Mozart and can read his posts. You can make a comment by clicking on LEAVE A COMMENT.

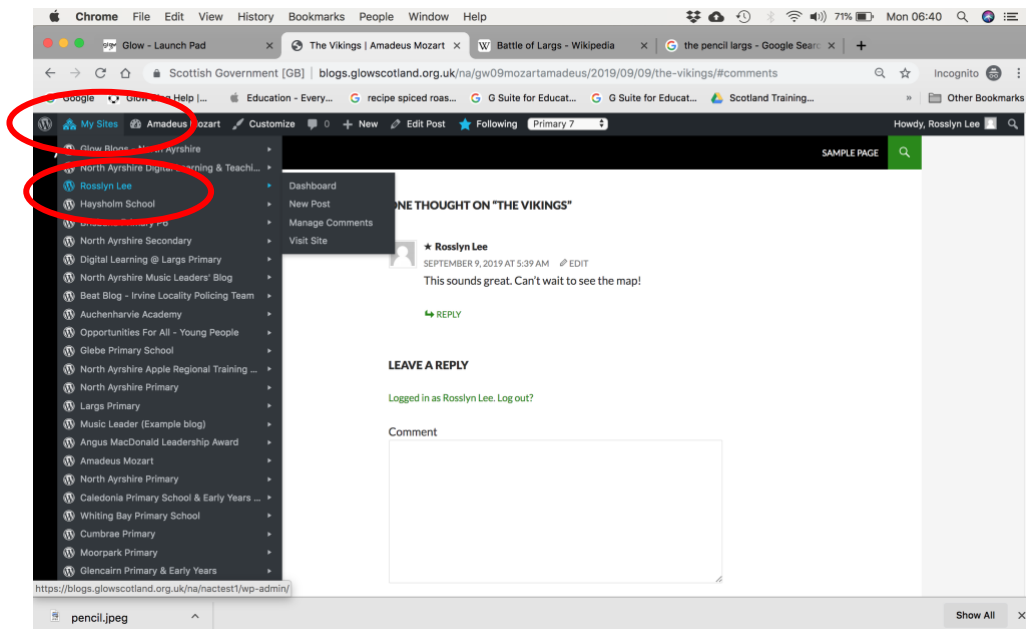

- This opens up a comment box where you can type in your comment. Remember it should always be positive, kind and supportive. You will see a speech bubble and the number 0 at the top – this means that there are no comments at the moment.

- Once you have left your comment the number will change to 1, but it looks as though you haven't left a comment as it still says LEAVE A COMMENT on his blog post. This is because all pupil comments have to be approved before they appear on the blog.

5. Once you have left your comment, go back up to MY SITES and return to your own blog by clicking on your name. It is important that you do this as you cannot make any changes to your own blog while you are in someone else's.

6. Check that your name is in the top bar on both sides – that means you are back in your own blog.
