## ECO NEWS

### AUTUMN 2018

## What we've been up to...

We are now firmly established in our new building and our Eco Schools work is well underway:

- In June, we worked with Largs Community Council to complete our annual beach clean. We lifted 9 sacks of rubbish.

- Also in June, the whole school took part in Travelsmart Week. This annual event is designed to encourage safe and environmentally friendly journeys to school. P4H were our winning class, having made the most eco friendly journeys to school.
- Since returning in August, we have established a new Travel Plan Committee, Junior Road Safety Officers and Eco Committee. They've all been busy.
- The TPC and JRSOs organised completion of the Hands Up Scotland Survey. This is another way that we are able to track our travel habits. Results are shared and collated on a local and national level.
- Our proposed new Eco Code has been ratified and is now on display throughout the school.
- P5 pupils have been volunteering to litter pick our school grounds during intervals and lunch times.
- We are working towards Gold Level within the Rights Respecting Schools programme.

- We entered the Largs & District Horticultural Society's Flower Show, held in Dunn Memorial Hall. We placed 1st for our collage on the theme of 'sustaining our world'. We also placed 1st for our 'school patio container'. We designed both with a fairy theme and had a fantastic time putting it all together.

## Upcoming...

- Litter pick of Alexander Park
- Anti-litter poster competition, organised in conjunction with The Fish Works
- Planning the development of our school gardens
- Renew our 'Fair Aware' Fair Trade schools award
