

What we've been up to...

- Work to develop our school gardens and grounds continues. A big thank you to all of the pupils and parents that have helped. This work is a joint venture between Largs Primary and St. Mary's Primary.

- We entered some of our produce in the Largs Horticultural Flower Show. We also entered a collage on the theme of 'It's Good to Grow Your Own'. We earned 1st Prize for both!

- We've completed an Environmental Review of our campus. This in part led us to choose Biodiversity, Health and Wellbeing and Litter as our new focus topics. This work will be completed over the next two years. Our Action Plans have been approved by Eco Schools Scotland. Work in these areas is already underway.
- P7Y won our annual Travel Smart Week competition in May. Pupils in that class averaged the most environmentally friendly journeys over the course of a week.
- We've purchased new gym and outdoor play equipment. The Parent Council has supported us with this and we thank them as always.

- All families have been invited to sign a campus parking pledge. Thus far we've received 108 signed pledges back. We thank families for their support. Keeping pupils safe is our priority.
- The Police and the NAC Road Safety Officer visited the school to talk to pupils about the importance of safe and environmentally responsible journeys to school.
- We completed a beach clean in conjunction with Largs Community Council and St. Mary's Primary. Pupils lifted 7kg of litter. Year on year we are finding that there is less litter being dropped on our local beach.

- During the first week of term 1, all classes participated in lots of outdoor learning, including bug hunts and sensory walks in the woods.
- We are collecting 'Aldi's Kit for Schools' stickers. If we can collect 300, then we can claim free sports equipment. Please send us any vouchers that you can.

Upcoming...

- A litter pick of Alexander Park in October
- We are refreshing our Eco Code so that it better reflects our three new focus topics
- A collection for Largs food bank
- Develop facilities to encourage wildlife to visit our campus
