Bubble Dough recipe

You will need:

A mixing bowl
1 cup of cornflour
½ cup of washing up liquid (works well with the coloured & scented liquid)
2 tsp of cooking oil
A spoon or your hands

What to do:

1. Measure out all of your ingredients into the mixing bowl.
2. Ask your child to help you mix up all the ingredients with their hands or a spoon.
3. You'll now have your own bubble dough (it's a bit like putty and it smells lovely)!

Top Tip

If your mixture is too sticky, you need to add more cornflour. But if your mixture is too crumbly you should add more washing up liquid.

Options

Why not try adding some glitter, dry rice or food colouring to the washing up liquid before mixing your ingredients together?
