Have Fun From Day One

moon Sand recipe

You will need:

A mixing bowl
8 cups of plain flour
1 cup of baby or vegetable oil
A spoon or your hands

What to do:

1. Put the flour into the mixing bowl and add the oil.
2. Ask your child to help you mix the flour with the oil using their hands or a spoon until it has combined together.
3. Your moon sand is now ready to go! There's lots you can do with it – why not start by making a sandcastle?

Top tip

Why not try adding some glitter, dry rice or food colouring to the cup of oil before mixing it with the flour?
