

Apps & Websites to support Mental Health & Wellbeing

NHS Ayrshire & Arran's Public Mental Health & Wellbeing Network has prepared guidance on some examples of Apps and websites to support mental health and wellbeing; we do not endorse or recommend particular resources, and encourage you to carefully explore resources before you use them. All the Apps are free to download but some do have in app purchases so we urge you to be cautious when exploring some of the features. (October 2019)

Younger Children		
Apps	HospiChill  Designed originally to help children relax and stay calm in preparation for hospital visits. The app has lots of visualisation and relaxation tools to help children whenever they are feeling worried or stressed.	
	Stop, Breathe & Think Kids  A mindful games App for children, to help them discover and develop their superpowers of sleep, being calm, learning to breathe or to resolve conflicts. Parents can support children to check into how they are feeling using fun emojis and try recommended mindful missions and meditations tuned to their emotions.	
	Smiling Mind  This is a free Mindfulness App with a wide range of meditations and relaxation tracks for all ages from young children to adults. Just as we eat well and stay fit to keep our body healthy, mindfulness meditation is about looking after the mind. The App also has programmes for sport, the classroom and the workplace.	
	Teenagers & Adolescents	
	Exam Stress  This App is for people who suffer from exam anxiety or from feeling stressed during their studies. The app is developed by the Student Counselling Service, who on a daily basis helps students all over the country with psychological and social problems. It derives from many years of experience in helping students to manage their exam anxiety.	
	Safespot  Safespot is a Scottish mental health App and website for young people. SafeSpot gives you your own personalized coping plan, useful strategies and tools to help manage mental health and deal with any challenges that life may throw at you

Calm Harm

This App provides advice and information that helps to resist or manage the urge to self harm. There are a range of activities to choose from plus other features that help you learn to identify and manage emotions with positive impact. The App can be personalised and made private.

Adults, Teenagers & Adolescents

WellMind

WellMind is your free NHS mental health and wellbeing app designed to help you with stress, anxiety and depression. The app includes information, advice, tips and tools to improve your mental health and boost your wellbeing.

Moodfit

This App allows you to create and track a set of daily goals to help improve mental wellbeing. It also helps you to understand the link between mood and other factors like sleep and exercise, with customised daily goals. Additional features include gratitude, breathing exercises and mindfulness which can all reduce the effects of stress, anxiety and depression.
