

## Activity

The bridge is a great spot for playing Poohsticks.

Choose your stick, drop it in the water and watch it race under the bridge to the other side.

Try sticks with different shapes and sizes.

Kingfisher

Bat

Heron

European Otter

## Animals of the River

- Animals use the river in lots of different ways.
- For the Kingfisher and Heron, the river is a place to fish for food.
- Bats feed on insects that are attracted to the water.
- Otters use the river as a path to move from place to place.
- Salmon and Sea Trout migrate from the sea into the river to lay their eggs in the oxygen rich waters.

How far do Salmon travel to lay their eggs? Scan the QR code to find out.

5

The Eglinton Park STEM trail is a collaborative project between the North Ayrshire Countryside Rangers and North Ayrshire STEM Education team.
