

I'm sure you have all been clapping every Thursday evening at 8pm and I see that you have displayed rainbows in your windows to thank the NHS for working so hard and helping everyone who needs it.

I thought it would be great to create a poster to say thank you to some of the other key workers who are also working extremely hard to keep us safe and allowing us to stay in our own homes. How about showing your appreciation for delivery drivers, postal workers or bin collectors?

Give them a friendly wave too! Click on the link below and follow the tutorial to create an optical illusion 3d hand. You can add a thank you message too! Tape it to your window, gate or door.

***Thank you
for your support!***
