

# Choose one of the following mazes and follow the instructions. Good luck!

## MAZE 100

In this maze there are numbers in each of the cells. You go through adding all the numbers that you pass. You may not go through any cell more than once.

Can you find a way through in which the numbers add to exactly 100?

What is the lowest number you can make going through the maze?

What is the highest number you can make going through the maze? (Remember you may not go through any cell more than once.)

## Calculation Maze Challenge

Start with zero.

You are only allowed to use each box once, but you don't need to use them all.

Can you find a route from the "Start" to the "End" which makes 100 exactly?

What is the route with the highest total you can find?

What is the route with the lowest total you can find?
