

Grid Method

L.I.: To use the grid method to calculate multiplication problems.

Complete the calculations using the grid method, remember to add the value of each box to get your total answer.
You will need to add the digits to the grid for question 9 & 10.

1. $65 \times 43 =$

x	60	5
40		
3		

2. $74 \times 32 =$

x	70	4
30		
2		

3. $23 \times 98 =$

x	20	3
90		
8		

4. $54 \times 49 =$

x	50	4
40		
9		

5. $33 \times 44 =$

x	30	3
40		
4		

6. $81 \times 53 =$

x	80	1
50		
3		

7. $86 \times 22 =$

x	80	6
20		
2		

8. $99 \times 42 =$

x	90	9
40		
2		

9. $77 \times 34 =$

x		

10. $13 \times 65 =$

x		

Now copy out a grid and calculate the answers to the following questions.

11. 57×88

12. 27×73

13. 29×92

14. 39×83

15. 61×42

16. 79×24

17. 88×55

18. 63×36
