

Grid Method

L.I.: To use the grid method to calculate multiplication problems.

Complete the calculations using the grid method, remember to add the value of each box to get your total answer.
You will need to add the digits to the grid for question 9 & 10.

1. $652 \times 43 =$

x	600	50	2
40			
3			

2. $714 \times 32 =$

x	700	10	4
30			
2			

3. $323 \times 98 =$

x	300	20	3
90			
8			

4. $524 \times 49 =$

x	500	20	4
40			
9			

5. $332 \times 44 =$

x	300	30	2
40			
4			

6. $281 \times 53 =$

x	200	80	1
50			
3			

7. $486 \times 22 =$

x	400	80	6
20			
2			

8. $399 \times 42 =$

x	300	90	9
40			
2			

9. $737 \times 34 =$

x			

10. $173 \times 65 =$

x			

Now copy out a grid and calculate the answers to the following questions.

11. 573×88

12. 287×73

13. 259×92

14. 839×83

15. 641×42

16. 739×24

17. 848×55

18. 683×36
