

## WEDNESDAY

1. What is the time?
2. £12.59 =   p
3.  $19 - 9 =$
4. 6.4 L =   mL
5. Will this shape tessellate?   
6.  $1\frac{3}{4}$  hours =   hour(s)   minute(s)  
or   minute(s).
7.  $\frac{1}{2}$  of 40 =   g
8. Draw a reflection of:
9. What two shapes make up a square pyramid?
10. Write as a fraction. 900 g =   kg
11. Write the numeral six thousand and nineteen.
12. Does a triangle have parallel lines?
13.  $\frac{1}{2} > \frac{1}{5}$        true  false
14.  $(6 \times 4) - 5 =$
15.  $\frac{1}{2} = \frac{2}{4}$        true  false
16. What will be the area of a grid 6 cm by 4 cm?   cm<sup>2</sup>
17. What is the meaning of 8 in 7800?
18. 
$$\begin{array}{r} 6065 \\ + 3921 \\ \hline \end{array}$$
19. How many triangles can you find?   
20.  $6 \overline{)612} =$

## THURSDAY

1. What is the time?
2. Give the equivalent fraction  
 $\frac{2}{3} =$    /     /   6
3.  $0.7 + 0.4 + 0.2 =$
4. In the pie chart, four children like tennis. How many like swimming? 
5. How many like football?
6. How many more like swimming than tennis?
7. 8900 mL =   L
8.  $\frac{1}{2}$  of 30 =
9. £10.49 =   p ez
10. Draw a reflection of:
11. 2 hours =   hour(s)   minute(s)  
or   minute(s)
12.  $8 \times 10 = (3 \times 10) + ($     $\times 10)$
13.  $(5 \times 6) - 7 =$
14. What would be the cost of tyres on 4 cars when the price is £50.00 per tyre? (ignore the spares!)
15. Is a light bulb symmetrical?
16.  $21 - 7 =$
17.  $\frac{1}{3} < \frac{1}{2}$        true  false
18.  $90 + 80 =$
19.  $5 \overline{)800} =$
20. What is the perimeter of a grid 7 cm by 9 cm?   cm
