## Introducing Fairtrade Fortnight - Climate, Fairtrade and You!

Under the Umbrella of Learning for Sustainability we have our Eco Schools, Rights Respecting Schools and Fairtrade Committee.

This is Fairtrade Fortnight and usually we'd be doing things in school to raise an awareness of what Fairtrade is and how we can play our part as global citizens to help others.

This morning you organised choice cards onto a Diamond 9 template. This showed the things that are the most important to you.

Now having watched the 'Needs and Wants' video, do you still feel this order is what you need to be happy and healthy?

\*Tell me if you still feel this order shows the most important things to keep you healthy and happy.

There is a difference between things that a human needs and things that a human wants. A need is something a person needs to survive and a want is something that is nice to have.

Meet Therese who is a cocoa farmer in West Africa.

Work through the powerpoint on the attached slides.

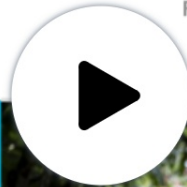

Would Therese have ordered the choice cards in the same way as you?

Tell me what you think and why.
