

Parents/Carers

It's hard to believe we are into the last term already. We're pleased to have them back and pleased to see the better weather too. We've already had an educational trip to Glasgow Science Centre but keep an eye out for details on further excursions this term.

Literacy

Reading – PM books and novels will continue to be read. With comprehension skills developed through follow up work.

Writing – This term the children will be focusing on information reports. There will also be some revision of skills learned. They will continue to focus on building vocabulary and grammar skills throughout.

Spelling –Nelson Spelling will be used to focus on spelling rules and strategies. With the weekly test held on Fridays.

Numeracy and Math

Keep practising times tables at home, it is encouraging more accuracy in their work and very much appreciated.

This term we are looking at chapters of measure;

*Length *Area *Weight * Volume

And a focus on algebra too.

To support your child at home try these sites:

www.sumdog.com

www.topmarks.co.uk/maths-games

P.E.

Gym days are **Thursdays** and **Fridays** for both classes. There will be a focus on team games. If the weather is nice we will use the outdoor space. Please remind your child to have suitable footwear on gym day and remove jewellery. Our Sports Day is pencilled in for **Mon 19th May**. Keep your fingers crossed for nice weather!

Health

Water bottles brought into class should contain **WATER only**. Juice spills in class can be sticky and ruin jotters. They can still have juice at break and lunch if they wish.

Science & Social Subjects

This term our topic is Sustainability. We will be exploring the human impact on the environment and researching non-renewable and renewable sources of energy. We will also be investigating how to power the future through science experiments.

Remember to look out for more key term dates and events through the school Xpressions App.

Thank you
