You will be asked to change your password:

Change Password

You need to change your password before you can use RM Unify.

The password strength meter shown below the 'New password' field will help you choose a good password. Longer and more complex passwords are more secure.

All fields are required.

Current password *

New password *

Confirm password *

Complete the 3 fields on the 'Change Password' screen. It is recommended to have a password that is 'Very strong' (password guidance is available here <https://glowconnect.org.uk/password-guidance/>):

Change Password

You need to change your password before you can use RM Unify.

The password strength meter shown below the 'New password' field will help you choose a good password. Longer and more complex passwords are more secure.

All fields are required.

Current password *

New password *

Confirm password *

[Change Password](#) [Cancel](#)

Once you have completed all fields, click the 'Change Password' icon at the bottom of the screen:

You have now successfully changed your password:

Change Password

You need to change your password before you can use RM Unify.

The password strength meter shown below the 'New password' field will help you choose a good password. Longer and more complex passwords are more secure.

Your password has been successfully updated.

All fields are required.

Current password *

New password *

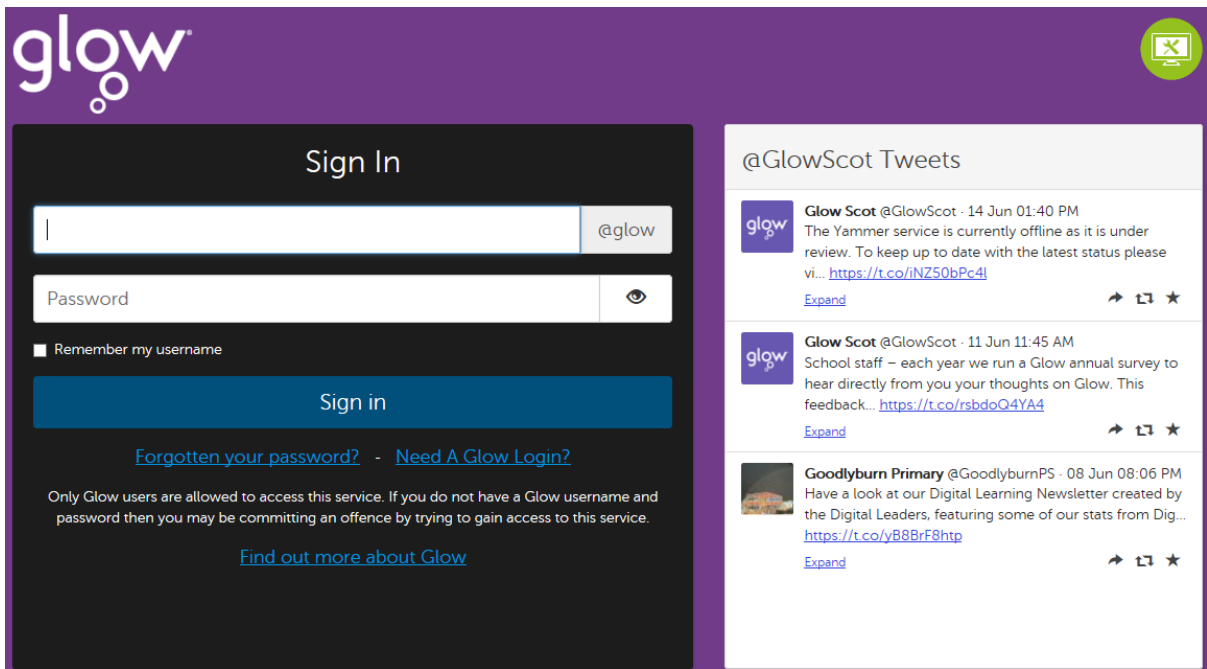

Confirm password *

[Sign in with new password](#)

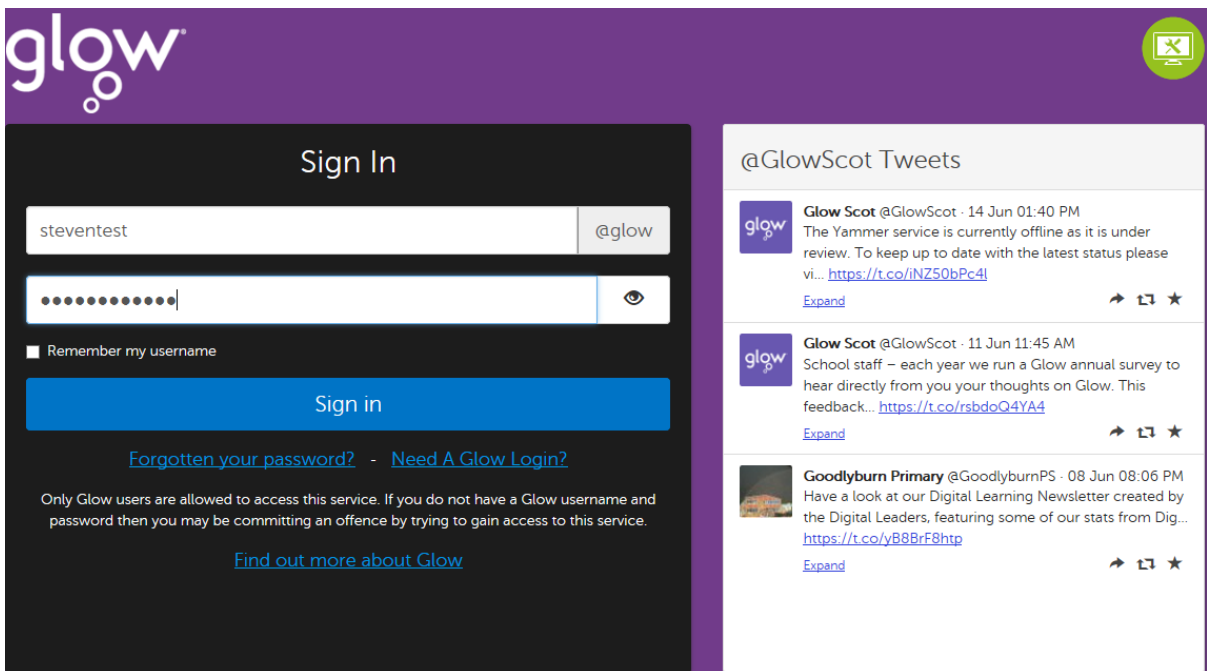

At the bottom of this screen, click the 'Sign in with new password' icon:

Which will take you to the following screen:

Enter your existing username and new password and then click 'Sign in':

You will now be logged into Glow!:
