What helps you learn?

If you're not the greatest fan of reading and prefer diagrams, sketches, charts and colourful information – try to:

- Rewrite your notes as mind-maps
- Use colour to highlight important things
- Draw diagrams and sketches to help you remember points

If you always get the best out of lessons that involve discussion, listening and talking – try to:

- Read your notes aloud
- Record yourself reading key points of your notes aloud, then listen to the recording.
- Revise with other pupils, if you can
- Teach what you know to an imaginary or real audience

If you get a lot of understanding by reading textbooks, using websites and writing notes try:

- Copying out your notes
- Reading your notes silently
- Rewriting the key points using different words
- Writing down key points from memory
- Creating flashcards

Come up with mnemonics

The word stands for Make Names Easily Memorable by Organising Nominated Initial Characters. The website Student UK suggests, My Very Educated Mother Just Served Us Nine Pizzas as a way of remembering the nine planets in order of distance from the sun (Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune, Pluto). You might want to use mnemonics to help you remember key facts.

Student Quick Start

The quickest way for students to access ACHIEVE is by following these 3 simple steps:

1. Visit <https://achieve.hashtag-learning.co.uk/>
2. Sign up with an email address and password
3. When prompted students should enter the Braidhurst High School code
TGTCXDLr

From here students can select all their National 5 and Higher courses, and access the Learn, Assess and Self-evaluate modules for each. More information on these modules can be found in the ACHIEVE Student Support Guide.
