

School closure: Contingency advice

Unforeseen circumstances, such as bad weather, damage to school buildings or disruption to transport, can result in unplanned school closures.

With online learning materials available for 41 SQA National Qualifications courses, SCHOLAR allows learners to continue their studies from any location with internet access.

Using the reporting system, teachers can track learners' progress through the activities, review their performance in formative assessments and mark any extended answers they provide online.

Ensuring access during closures

There are three simple measures you can take now to ensure that, in the event of school closure, learners are able to continue their learning using SCHOLAR without delay.

1. Ensure teachers know how to access the platform

Using Glow	Accessing SCHOLAR directly
When logged on to Glow, teachers can use the SCHOLAR tile to access their account without needing to provide a username or password. To set up this feature, the very first time teachers use the tile they will be asked to provide their SCHOLAR username and password.	Teachers can log in to SCHOLAR from our website (https://scholar.hw.ac.uk). Teachers logging in directly to SCHOLAR will be asked to enter a username and password.

If a teacher doesn't already know their SCHOLAR username or password, the "Forgotten password" option on our website can be used to request that login details be sent to the email address listed for the teacher on SEEMiS. <https://scholar.hw.ac.uk/forgottenPassword/> Where SEEMiS does not list a valid email address for the teacher, they should contact their school SCHOLAR contact to obtain their account details.

2. Ensure learners know how to access the platform

Using Glow	Accessing SCHOLAR directly
Learners can use the SCHOLAR tile in Glow to access their account.	Learners can log in to SCHOLAR from our website (https://scholar.hw.ac.uk).
Learners accessing SCHOLAR through Glow do not need a separate SCHOLAR username and password.	Learners logging in directly to SCHOLAR will be asked to enter a username and password.
	Class teachers, principal teachers and the school SCHOLAR contact can all access learners' usernames and passwords using the "Password Manager" feature available at the top of their screen when logged in to SCHOLAR.

SCHOLAR

3. Set up S3 learner access if required

Learners in S3 studying level 4 material as part of the BGE often cover topics common to National 5 courses and may find access to SCHOLAR National 5 courses useful.

If you would like your S3 learners to be able to use SCHOLAR, please contact reg@scholar.hw.ac.uk or call 0131 451 4002.
