

# How do I access West OS?

West OS is accessible via Glow. All teachers and learners in your Local Authority now have access to the West OS tile within the App Library which you can add to your personal launchpad.

The screenshot shows the Glow App Library interface. At the top, there are navigation tabs for 'Launch Pad', 'App Library', and 'Management Console'. Below this, there are filters for 'App Type' (All, Free App, Paid App, Saved Password App) and 'Scottish CIE Area'. A search bar is also present. The main area displays a grid of app tiles. One tile, 'West OS powered by ClickView', is highlighted with a red box. A red line connects this tile to a larger view of the app's details. In this detail view, the 'Add to My Launch Pad' button is highlighted with a red box. The details include a description, key features, support information, and privacy information.
