

Cardinal Newman High School's 40th anniversary mini-website

Pre-2000s

During this time, there were more structured records, and even yearbooks that we have found. We have found yearbooks from as far back as 1992. Some of what we have found can be found below.

There are quite a number of memorable teachers that pupils who have went to the school during this time remember well, and some of these teachers can be seen below also.

These are two of the earliest yearbooks we found, the one from 1992 was the earliest we could find.
