

School Improvement Priorities 2026–27

The school is working with children, families and staff to help every child feel safe, included, ready to learn and able to achieve.

Our shared priorities

Our goal	What the school will do	How you can help at home
Raising attainment in writing	Develop and implement a consistent whole-school approach to teaching writing, so children build their skills and confidence as they progress through the school.	Encourage children to write for different purposes, talk about their ideas, enjoy books together, and celebrate effort and improvement.
Developing relationships, nurture and behaviour support	Strengthen consistent approaches to relationships, nurture and behaviour, helping children feel safe, supported and ready to learn.	Talk about kindness, respect and feelings, use calm and consistent expectations, and share concerns or helpful information with the school.
Developing teaching across the curriculum	Explore current strengths in teaching across the curriculum and develop selected elements of play-based learning to support engagement, creativity and deeper understanding.	Encourage curiosity, ask children about what they are learning, and support learning through play, practical activities and everyday experiences.
