Describe the learning taking place this term (3)

This term we are very excited to learn about the Scottish Wars of Independence including all about famous Scots William Wallace and Robert the Bruce.

During Literacy we are continuing to develop our reading strategies in order to improve our fluency and comprehension. It is important that we read our homework chapters to ensure we are able to complete tasks in class based on what we have read.

In mathematics we will be learning all about algebra including patterns and equations. We will also be learning about the processes involved in information handling including collecting, displaying and interpreting data.
