

Orbiston Community Hub

Introduction:

Since our last newsletter, we have been actively engaged in developing the design approach for the new Orbiston Community Hub. This has involved a number of sessions with Pupils, Staff, Parents, Community Groups and the wider community. The outcome of these have informed the direction that the emerging design has taken.

What is happening:

We would like to invite you to a virtual event where we can present our emerging designs, demonstrating how we have listened and taken on board the feedback and comments received through our previous engagement events.

We are still early in the design process, so feedback and comments from the community is really important to the team. As such, we would encourage you to attend if possible. The details for the online event at 6pm on Wednesday 6th October 2021, can be found at the following location:

www.orbistoncommunityhub.com

This will also become the location for updates on progress and future events associated with the Orbiston Community Hub.

If you have any questions, please contact the email address below:

HubDeliveryTeam@northlan.gov.uk

Recent activity:

Site Surveys including:

- Ground Penetrating Radar
- Site Investigations
- Utilities
- Drainage
- Ecology & trees

The outcomes of these surveys have enabled us to understand the constraints of the site and refine the building location.

We have also met with the planners and roads departments of NLC.
