

# Bar graphs

These graphs show the number of children present in P3 and P4.  
How many P3 children were present on:

- |                    |                   |
|--------------------|-------------------|
| 1. Monday? .....   | 2. Friday? .....  |
| 3. Thursday? ..... | 4. Tuesday? ..... |

How many P4 children were present on:

- |                     |                    |
|---------------------|--------------------|
| 5. Wednesday? ..... | 6. Friday? .....   |
| 7. Monday? .....    | 8. Thursday? ..... |

There are 32 children in P3 and 28 in P4.  
Write the number of absences on:

- |            |          |          |
|------------|----------|----------|
| 9. Tuesday | P3 ..... | P4 ..... |
| 10. Friday | P3 ..... | P4 ..... |

I can interpret and use the scale on bar graphs
