

# It's Party Time!

L.I. - I am learning to select items and work out the total.

You can use a calculator to help you with this task. If you do not have your own calculator, you could use one from the internet, a tablet or a mobile phone.

Party hats

25p

each

Sandwiches

97p

each

Crisps

46p

each

Hotdogs

£1.05

each

Pizzas

£1.10

each

Coke

65p

each

Lemonade

62p

each

Ice Creams

89p

each

Cakes

94p

each

Balloons

75p

each

You are having a party for 12 people. You have **ONLY** £50 to spend. Everybody must have a balloon, a party hat, a drink and **AT LEAST 2** things to eat.

Work out what you can buy, how much money you will spend altogether and how much money you have left.

I can buy: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Altogether I spend

I have  left.
