

## Internet Safety

It is very important we recognise how to stay safe online. I know we talk about this in the class, but due to lockdown circumstances we are using the internet a lot more and have to remember all the ways we stay safe. Remember, if there's anything upsetting you when you are online, and at any other time, **please talk to your parents**. It is very important you talk to an adult you know well and trust, because we **can** make it better for you.

Here are important things to remember:

I know how much fun it is to share photographs with your friends, especially during lockdown. Always share nice, friendly, funny photographs. If you think your mum or dad, carer or teacher wouldn't want to see the photograph and would be sad you had shared it, ask yourself if it's worth sending! Remember others can screen shot your photographs and keep them or send them to others.

**Don't** share any personal details. Keep things like your address, phone number, full name, school and date of birth private. **Always** speak to your parents if you are ever asked any of these details.

**Never** give out your passwords or log-in information.

### Task

Log into Education City and complete 'Internet Safety' under my classwork. If you have any problems logging in, please email me at [gw14reillyelaine@glow.sch.uk](mailto:gw14reillyelaine@glow.sch.uk)

Extension Task: If you have time, you could create a poster sharing with others how to stay safe online. Remember to make it nice and colourful.
