

Expressive Arts

I know some of you would like some more art activities to get involved in at home. BBC bitesize have lots of different clips you can watch, and then try the drawings at home.

One of my favourites is 'Drawing with an eraser'. You use a pencil to cover a sheet of white paper and then rub it out with an eraser to create your picture. Here's the link to the page

<https://www.bbc.co.uk/bitesize/clips/z3bnj6f>

The picture focuses on shading, if you rub it out gently the effect will be darker and if you rub it out harder, the effect will be lighter.

Why not have a go at creating your own picture?

If you can, email them to me gw14reillyelaine@glow.sch.uk, I would love to see them.
