

## Writing Task - Writing Instructions

This week for one of your health and wellbeing tasks, you have been asked to help prepare a healthy meal or drink at home. You could help to make a dinner or even make a fruit salad. It is up to you and others at home to choose what to make. Once you have made your healthy meal or drink, I would like you to write a set of instructions so that you could tell others how to make this. We have written instructions in class before so I know your instructions will be fantastic.

L.I. - I am learning to write a clear set of instructions in a logical order.

### Success Criteria

- I can write the ingredients needed.
- I can write and number the instructions in the order you follow them.
- I can make sure the instructions make sense.
- I can draw a picture of the finished meal.

Remember when writing instructions, first of all, you need to write the ingredients and equipment that are needed and then you will begin your instructions, starting with what you did first.

Here is an example of how to start your instructions:

## Writing Instructions

L.I. - I am learning to write a clear set of instructions in a logical order.

Ingredients:

- Apples
- Oranges
- Strawberries
- Bananas
- Grapes

Equipment:

- A knife
- A bowl
- A chopping board

Method:

1. Firstly, gather all the pieces of fruit and set them to the side.
2. Peel the bananas and the oranges and place them to the side.
