Acute

Obtuse

Right angle

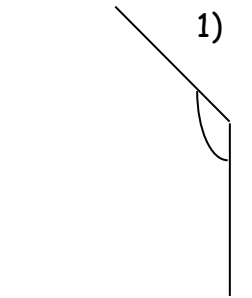

Recognise and Identify Acute and Obtuse Angles

Acute angles are less than 90° .

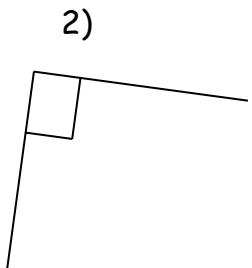

Right angles are 90° .

Obtuse angles are more than 90° , but less than 180° .

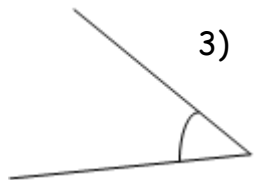

Choose 3 colours, fill in the key, then colour the angles as appropriate
(If you colour in the acute angle red, then all acute angles should be coloured red)
