

Health and Wellbeing

Now we are at the end of Primary 4, it's time for you to reflect on all your learning this school year, not just home learning. What have you enjoyed? What do you need to maybe work harder on in Primary 5? What would you like to learn more about? Use the following template to create goals for Primary 5.

Write your goals in your home learning jotter. I have provided some examples in the template for you.

Keep your goals somewhere safe! Before the end of Primary 5 you can check and find out if you achieved them.

My Primary 5 Goals

What I want to achieve in
literacy in Primary 5
is to spell common words
correctly in all my writing tasks.

Picture of me working to achieve it:

How I will reach my goal
I will use my school diary and a
dictionary to help me.

What I want to achieve in
mathematics in Primary 5
is to know and recall times table
facts.

Picture of me working to achieve it:

How I will reach my goal
I will keep practising my times
tables at home. I will use my
diary to help me.

What I want to achieve in
Primary 5
is to tie my shoelaces

Picture of me working to achieve it:

How I will reach my goal
I will ask someone to show me
and practise every day.
