

Presentation

You have already been given guidance and advice on your presentation by your teacher.

Remember;

Your presentation should last no more than 4 minutes.

Both of you must speak

You must speak of what you have learned

You must have an appropriate slide show

Don't just read off the screen!

Be prepared to answer questions at the end!

Speak clearly and try to memorise your presentation as this will make it look much more professional.

If you feel you have to use notes the following page can be cut up in to cue cards.
