

Adding decimals

Complete the additions, estimating first.

1.
$$\begin{array}{r} \\ 4.62 \\ + 1.75 \\ \hline \end{array}$$

2.
$$\begin{array}{r} \\ 5.32 \\ + 7.47 \\ \hline \end{array}$$

3.
$$\begin{array}{r} \\ 8.28 \\ + 6.37 \\ \hline \end{array}$$

4.
$$\begin{array}{r} \\ 5.36 \\ + 1.09 \\ \hline \end{array}$$

5.
$$\begin{array}{r} \\ 4.72 \\ + 5.38 \\ \hline \end{array}$$

6.
$$\begin{array}{r} \\ 6.47 \\ + 7.35 \\ \hline \end{array}$$

7.
$$\begin{array}{r} \\ 8.32 \\ + 9.59 \\ \hline \end{array}$$

8.
$$\begin{array}{r} \\ 4.78 \\ + 1.62 \\ \hline \end{array}$$

9.
$$\begin{array}{r} \\ 3.07 \\ + 5.96 \\ \hline \end{array}$$

10.
$$\begin{array}{r} \\ 11.35 \\ + 5.94 \\ \hline \end{array}$$

11.
$$\begin{array}{r} \\ 8.64 \\ + 12.39 \\ \hline \end{array}$$

12.
$$\begin{array}{r} \\ 4.58 \\ + 5.96 \\ \hline \end{array}$$

13. Roll a dice six times. Arrange the dice numbers to make your own additions like these.

I can add numbers with two decimal places
