

## Life Cycle of a Butterfly

On the following page, please use the information you have learned to show the life cycle of a butterfly:

From egg to caterpillar  
From caterpillar to chrysalis  
From chrysalis to butterfly

If you need to remind yourself of the life cycle, you can look back at Tuesday's work.

I would like the **Full Stops** to use **pictures** to show the cycle.

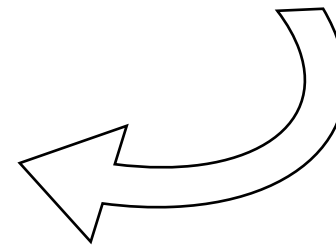

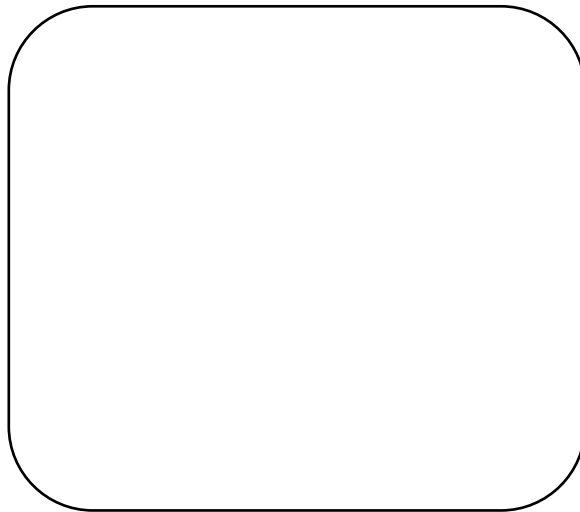

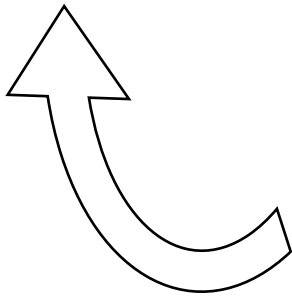

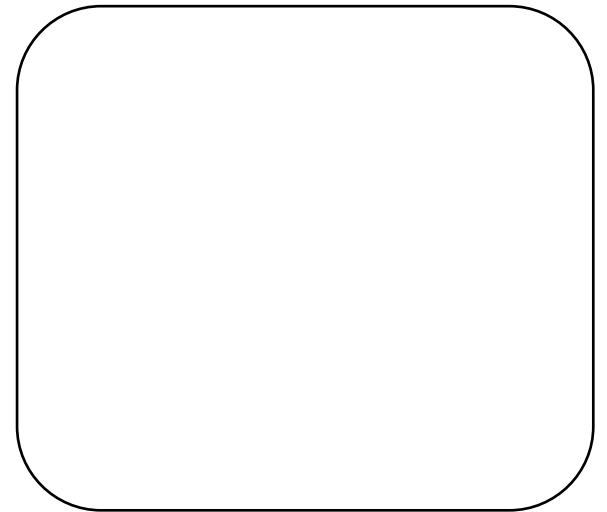

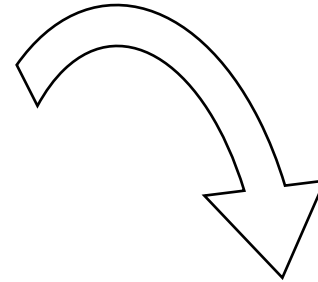

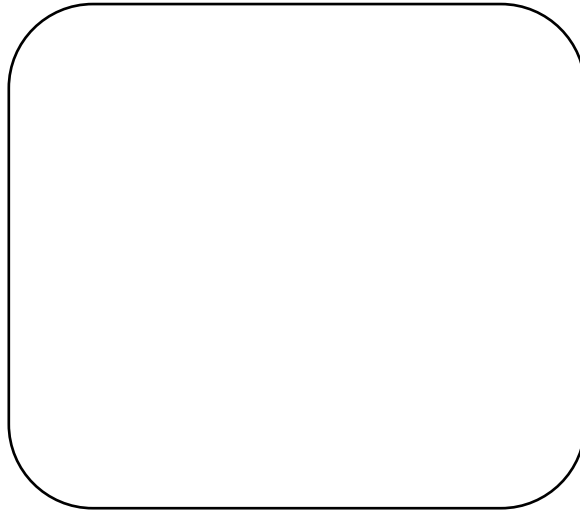

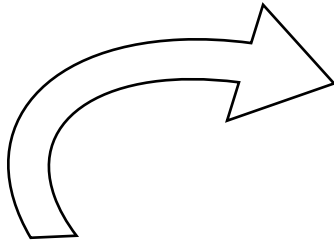

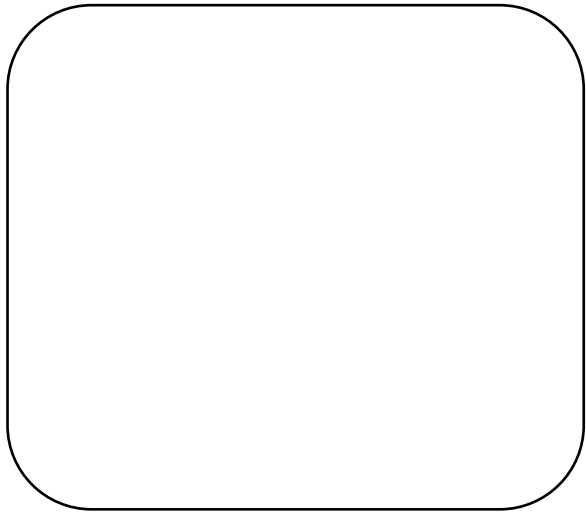

I would like the **Commas** to use **pictures** and a **short sentence** for each part of the cycle.

I would like the **Exclamation Marks** to use **pictures** and a **description** for each part of the cycle.

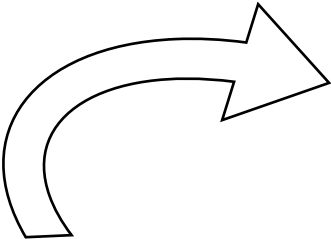

You can make your pictures 3D by sticking objects into each section to show the egg, caterpillar, chrysalis and butterfly. Why not find some nice leaves outside to stick down as a background for your work?

Be creative! Please!

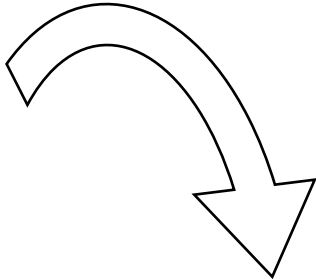

Full Stops

Commas

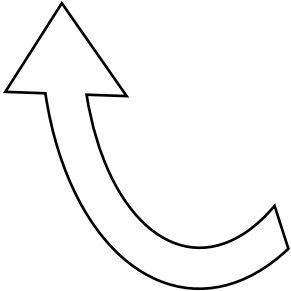

[Empty rounded rectangular box with a horizontal line at the bottom]

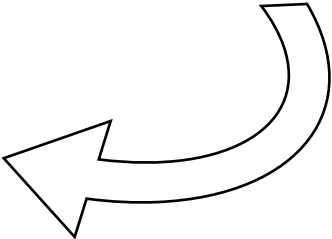

[Empty rounded rectangular box with a horizontal line at the bottom]

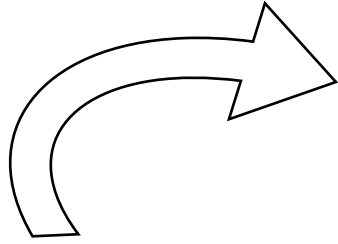

[Empty rounded rectangular box with a horizontal line at the bottom]

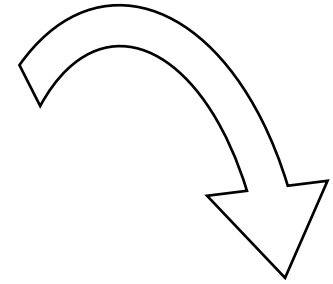

[Empty rounded rectangular box with a horizontal line at the bottom]

Exclamation Marks

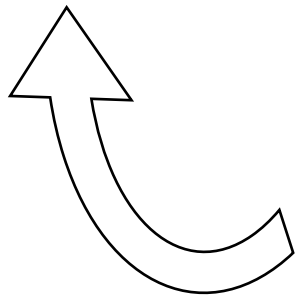

A large rounded rectangular box with two horizontal lines near the bottom, intended for writing.

A large rounded rectangular box with two horizontal lines near the bottom, intended for writing.

A large rounded rectangular box with two horizontal lines near the bottom, intended for writing.

A large rounded rectangular box with two horizontal lines near the bottom, intended for writing.
